- Rigid, very strong grid
- Easy design and cost effective upgrades
- Wide range of indicators and switches
- Compatible with M-Net instruments
- Direct or network connectivity

For assemblies with either height or length of 576mm or less, SP21 outer profile is fitted as standard. Smaller units can also be assembled with SP55 profile, allowing active components to be fitted in all perimeter locations.

SP21 has an 18mm anodised visible front face.
SP55 has a 12mm anodised visible front face.
